Clear, Concise & To The Point
Sometimes WE get inundated with updates, price increases or new information. Time doesn't always allow us the opportunity to gracefully compose this information, so ... here it is ... **"CLEAR, CONCISE & TO THE POINT."**

Convertible Top Brush

Our "Convertible Top Care Instructions" and "Warranty Card" have always stated to clean convertible tops with a soft brush but frankly speaking who has one? We now do. We are stocking Convertible Top Brushes that are made of natural hairs that are soft, durable, nonabrasive, and are specifically designed for cleaning convertible tops. They would be a great gift to give your customers whom have just had a new top installed. List price is: \$18.00.

(Not to be used as a toothbrush)

"Happy New Year"

"In-spired, In-spirit"

A very Happy New Year to all. WE hope you all had a beautiful holiday, full of joy, happiness and good health.

This New Years Day came to me and went by without any attempt at making a conscious, life altering resolution. Traditionally, as with most people, WE feel it necessary to wait for the start of a new day, or a new year to initiate positive changes in our lives. But while I was pondering the disappointment at a missed opportunity to make a life style change, it occurred to me that waiting for the future of a new time frame was just my way of postponing what I really didn't want to do in the first place. We want the results from a new acquired habit but sometimes don't necessarily want to make the sacrifices. In addition, sometimes our idealistic self (the one who thinks everything else is better than the way WE have it), sets up goals that are not realistic; which in turn sets ourselves up for the inevitable failure.

If I had the drive or initiative to follow through on a habit change, I could do that right now. Why would I have to wait for the start of another day? Every one of us has the ability and strength to change those things that we are inspired to. WE don't need a new day, a new year, a new outfit or a new piece of equipment. All WE need is a new thought. So many of us get so caught up in the world wind of activity that WE now call "Life", that we forget to think, and when WE stop thinking WE lose sight of our inspiration. WE all are a perfect creation and each one of us has the ability to conquer all our challenges and obtain all our desires. Its an old cliché but a good one, "There is no better time than the present."
